

ATTACHMENT B
Supplemental General Sales Terms and Conditions for
NRG Super 60-meter XHD TallTower™ and NRG 80-meter XHD TallTower™

These Terms and Conditions are supplemental and in addition to NRG's General Sales Terms and Conditions, solely as it pertains to the NRG Super 60-meter XHD TallTower and NRG 80-meter XHD TallTower (each identified as the "Equipment") are material to NRG Systems (Seller) agreement to offer the equipment to the Company identified in the applicable quotation.

As a condition of sale, Company acknowledges and agrees to the following:

1. Acknowledgement of Risk of Injury or Property Damage: Tower components consist of heavy objects often under significant tension. When proper safety precautions are used and all installation instructions are followed, the Equipment can be installed safely; however, there is a significant risk of serious injury or death, or property damage, if safety precautions and proper installation procedures are ignored.
2. Acknowledgment of Special Skill Requirement: Company acknowledges that due to its complexity and the risk of serious injury/death or property damage, proper installation of the Equipment requires specialized knowledge and skill. Buyer further acknowledges that the Equipment must therefore be installed ONLY by an experienced installer of NRG tubular towers. Please contact NRG Systems for a list of experienced installers as examples of who Company may decide to hire.
3. Installation Acknowledgment: Company agrees to install and use the Equipment in strict compliance with either the NRG Super 60-meter XHD TallTower Installation Manual & Specifications, or NRG 80-meter XHD TallTower Installation Manual & Specifications provided on NRG's website as appropriate. Pursuant to Paragraph 2, the Equipment will be installed by an experienced Installer.
4. Site Specifications Acknowledgment: Company certifies that the installation location has been selected after due consideration of all applicable site specifications as set forth in either the Super 60-meter XHD TallTower Installation Manual & Specifications or NRG 80-meter XHD TallTower Installation Manual & Specifications, including but not limited to those recommendations contained in Federal Aviation Administration Advisory Circular AC 70/7460-1L.
5. Voiding of Warranty Acknowledgment: Company acknowledges that improper installation voids the NRG Systems Two Year Limited Warranty.
