

WindLinX Activation Directions

All cellular iPacks ship WindLinX ready. WindLinX is a wireless (GSM, or CDMA) communication service optimized for NRG iPacks, with a management portal giving you total control over your fleet of iPacks. If you are using WindLinX, follow the steps below to activate.*

With Internet Access

- 1 Go to <https://portal.windlinx.net>**
- 2 Login to WindLinX**
(if you don't have an account don't worry, you can create one, or you can use the "Emergency Activation" link and create an account later)
- 3 Select "Activate new device"**
- 4 The Activation Wizard will help you complete the activation**

No Internet Access

- 1 Complete the enclosed activation form, and fax it to the activation desk.**
- 2 Receive account "InfoPack" within a maximum of 24 working hours**

* If you choose not to use WindLinX, then you will need to obtain an appropriate third party cellular contract, and suitable email service.

Emergency Activation

If you need to activate your iPack and don't wish to setup a WindLinX account immediately, you'll need to have a major credit card and internet access, and visit <https://portal.windlinx.net>. The cost of an emergency 10-day activation is \$30.
